

Retailworks Inc./LMF Group Opens Second Office Satellite Location in Tucson, Arizona Designs Solutions

FOR IMMEDIATE RELEASE

MILWAUKEE, WISCONSIN (December 9,2019)

Milwaukee-based Retailworks, Inc. and its division LMF Group (providing commercial interior design/display, marketing and branding services), recently opened a satellite office in Tucson, Arizona. Senior Designer and Project Manager, Holley Bakich, manages the office.

“We provide solutions to companies nationwide, so it made complete sense to open a satellite office when Holley moved to Tucson along with her husband who recently retired,” said Retailworks/LMF Group President & CEO Lyn Falk. “She is a key member of our design team and will continue to manage projects for us.”

Part of the new office setup was implementing Facebook Portal, a wide angled digital camera/communication device, which keeps Bakich engaged daily with office/client meetings and vendor visits. “Lyn and I travel quite a bit to visit clients located throughout the country, so my being in Tucson was not an issue for them,” said Bakich. She will return to Milwaukee on a regular basis to spend time with the Milwaukee team and Wisconsin clients.

About Retailworks, Inc.
